Title of your experiment

e.g. An Experiment ...

Aim of my experiment

Think about what you are trying to find out by carrying out this experiment.

What questions are you trying to answer?

Equipment

List the equipment that you will need in order to carry out your experiment

Prediction (Hypothesis)

Write down what you think will happen when you carry out your experiment.

Also think about why you think this will happen.

Method

Provide step by step instructions of how you will carry out your experiment.

Think about how you will make it a fair test.

Results

Record your results.

You might want to draw pictures, write a description and/or draw a graph.

Conclusion

Write down what you found out.

Was your prediction right?

What did you learn?
