

## Wooden Pastel Pebbles

**Product Code: EY06720**

These are a tactile resource that can be used in a variety of ways.

- The pebbles can be stacked and make an interesting construction resource. Incorporate them with other wooden and metallic pebbles.
- Children may enjoy sorting the pebbles into size and colour sets. They could make sequences with them, both horizontally and vertically.
- Use them in small world play. Incorporate them with a range of materials.
- You may wish to include them as part of a treasure basket activity. You could make a pebble collection, incorporating a variety of textures, or a collection of wooden things which the pebbles could be included with.
