

Mud Kitchen House

Product Code: EY10074

A lovely mud kitchen, complete with a roof for shade and shelter. Imagine making a little home corner with all your utensils and ingredients around you. There is a worktop and removable sink. The sides are great for hanging storage containers/ladles from. We used them for spoons and for herbs which are most useful when cooking or making your exciting potions.

Children love the idea of being in a cosy space and the roof gives this feeling of being slightly enclosed, but still able to see what is going on around you.

This could be a home corner, a mud kitchen, a science lab or whatever the children choose.

Accessorise it with resources that support and enhance fine motor skills, language enrichment, mathematical understanding and collaborative skills.
