## Bucket analogy – Part 1

- ☆ Imagine your body is a bucket.
- ☆ When we get anxious or upset our stress hormones pour in and can spill over.
- ☆ If this happens we might cry or get angry.
- ☆ We need to think of the things that start to make us feel upset much earlier.
- ☆ Little things might add up or a few bigger things might fill your bucket.
- ☆ Think of worries that upset you, draw them in your bucket as water levels or pebbles. What fills up your bucket/body?
