

## Silver Metallic 3D Construction Blocks

**Product Code: EY07486**

These engaging blocks make a wonderful addition to a setting. They are a really appealing construction range.

- Allow the children to build the blocks. They may enjoy stacking them and then knocking them down. Others may choose to line the blocks up. Some children will build castles, houses, rockets, cars etc.
- The blocks are open-ended and lend themselves to many scenarios. They could even be seen as treasure. They could be part of a treasure collection of silver things, shiny things, shapes etc.
- Older children may enjoy learning the proper names for these eg. cuboids etc.
- In some cases the children will use the blocks in their symbolic play. The cuboid may become a phone, a key, etc.
