

Mermaid Sequin Motor Skills Frame

Product Code: EY10451

These wooden sequined frames are perfect for provoking children's curiosities. With their vibrant 'mermaid sequins' it will engage children in mark making in a unique way. It is a relaxing, calming experience for children to discover when revealing shades of colours.

- The children can freely explore what happens when they move the sequins around. They can use fine motor skills when mark making.
- This is a treasure like resource that can be interacted with. Encourage the children to experiment.
- Place different tools alongside the boards such as; chopsticks, rulers etc. Children can develop their ability to use tools with control and see the cause and effect.
- Have a basket of textures alongside the board to encourage children to talk about different textures. You can encourage new language opportunities by using a diverse vocabulary; sequinned, gleam, polished, glossy, lustrous etc.
- You could place cards next to the boards with different patterns and structures on. Children may copy these patterns when mark making.
- It is also a perfect addition to any sensory room as it is a relaxing resource.
