Important Information

Please retain the information in this User Guide for future reference.

Please read all instructions fully before using.

To clean, wipe the cubes with a clean damp cloth.

Do not allow the cubes to come into contact water or other liquids.

Keep the cubes away from direct sunlight and heat when not in use.

In the event of an electrostatic discharge, your cube may malfunction. In this case, please switch it off and then back on again to reset it.

Non-rechargeable batteries are not to be recharged.

Rechargeable batteries are only to be charged by an adult.

Batteries are to be inserted with the correct polarity.

The supply terminals are not to be short-circuited.

Only batteries of equal size and type should be used

Glow construction comes as a set of 12 multi-colour light-up sensory cubes:

4 Large cubes 15 X 15 X 15cm

8 Small cubes 7.5 x 7.5 X 7.5cm

Glow Construction

Changing the batteries

The Glow Construction cubes all require 2 x AA alkaline batteries (not supplied). Undo the screw to release the battery hatch. Insert the batteries carefully, making sure they are fitted with the correct polarity. Re-fit the battery hatch and re-tighten the screw.

Using your Glow Construction

Glow Construction cubes have a special sensor inside. Depending on which face of the cube is at the top, the cube will glow one of five vibrant colours, red, green, blue, yellow or magenta. When the battery hatch is facing upwards, the cube will be off.

Please note that the battery life depends on the colour selected. The small cubes will have an average battery life of 100 hours or more and the large cubes an average of 50 hours or more.

Please switch the cubes off when not in use to conserve the batteries.

Problem	Solution
Not all the faces of the cube will glow or cube flicker	A minimum battery voltage is required for each colour. As the battery discharges some colours, starting with blue, will not work. Please replace the batteries to restore full operation.
Most of the faces glow red	Battery Voltage is too low. Please replace the batteries.

Warranty & Support

This product is provided with a one year warranty for problems found during normal usage. Mistreating the Glow Construction or opening the unit will invalidate this warranty. Any data stored on the unit and any consequential loss is not covered by this warranty. The battery is not user replaceable.
