

Matching Socks and Mittens

Product Code: EY06693

Here are some suggestions:

- Children enjoy making the socks and mittens into pairs. Play games such as can you find me the one to match this? Talk about the patterns, colours and shapes on the objects.
- For some children they may enjoy posting the items into the box.
- Use the box like a feely box, so without looking they can try and make a pair by working out which sizes and shapes correspond.
- You could add your own socks and mittens to the box.
- The children could draw around the shapes and make their own matching items.
- You could go on to talk about other things that come in matching pairs eg. earrings, gloves etc.
