

Super Metallic 3D Shape Collection

Product Code: EY10041

- The children will enjoy playing with the shapes. For some it will be the simple pleasure of stacking them and then rebuilding. Others will enjoy lining them up or building different constructions.
- The shapes make a great addition to the construction area as they add a different shape, design, property, weight and texture.
- Younger children will enjoy exploring them. They could be part of a shiny treasure collection.
- Older children could use them for learning about 3d shapes, their properties and their names.
