

Baby Activity Loop

Product Code: EY10579

This delightful Baby Activity Loop is a lovely addition to your baby room. Children will enjoy being curious and exploring what can be found inside the holes around the edge.

- Hide scarves and tactile objects to encourage babies to be curious (risk assess). Children will love discovering the items you have hidden and will want to investigate all of the holes. Once the child has found the scarf you could play peek-a-boo together.
- It is a lovely resource for tummy time activities, this is a great opportunity for babies to grow and develop their muscles and strength. Babies can relax against the Loop all snuggled up in its soft fabric.
- Think about using rattles (risk assess) that make different sounds to hide. When the child discovers each rattle they will enjoy listening to the different sounds.
- Baby Mirrors (EY05077) could be placed around the loop for the children to explore.
- Sing rhymes to the baby as they rest within the loop. You might sing songs like 'pat-a-cake' and 'round and round the garden'.
