

FRACTION-WALL CLASS PACK: 5 TIPS TO GET STARTED

Tips to Get Started with the Fraction-Wall Class Pack

- Make a traditional fraction-wall using the fractions with a numerator of 1
- Make a super-sized fraction-wall including all fraction cards for each denominator. Look for patterns within the wall.
- Use the colour co-ordinated wholes to discuss pupil's understanding.
- Ask pupils to notice equivalent fractions.
- Under the $\frac{3}{3} = 1$ whole strip place 4 $\frac{1}{3}$ strips. Ask what the pupils (this reinforces how fractions build up to be a whole and beyond).
