

## Wooden Viewers

### Product Code: EY01175

- What can you discover as you go on a colour treasure hunt around your room? What will things look like?
- Go outside and investigate with the viewers. How do they transform things?
- Use on a table top and look at objects through them. Place acetates over the viewers and see how it changes the colours.
- Hang the viewers on railings and fences so that the children can access them independently and use them in their explorations.
- Place them on lightboxes and see the colours shine through. Place things on the viewers. You could even make a mini small world.
- Using a lightbox, place coloured voiles on top of the viewers and see if the light shines through. What colours can you see?
- Compare and contrast. Try one colour viewer and then another. How are they different?
