

Rolling Pin Collection

Product Code: EY10645

They are beautifully crafted in wood and are a lovely addition for creative and messy play experiences. The sizes vary so that the children can select the size they wish for their work.

- Use these rolling pins alongside different tools like cutters, pressers and stampers for children to further their creations and develop their fine motor skills.
- The Rolling Pins are great for pressing and rolling onto soft textures such as dough and salt dough. The children may make shapes, make specific objects or just enjoy rolling the dough out.
- Some children may wish to make things for a particular theme e.g. foods and use the rolling pins to make their pretend breads, pizza etc.
- Try using the rolling pins with different materials. You could try sand, oats, flour etc.
- Experiment with using the rolling pins in wet, slimy, gooey materials. Is this tricky? Can you transfer the paints onto paper etc.?
