

# Questions for the show me device

Code: MSMCYL

---

1. Can you show me 300ml?
2. Can you fill your container to 0.6L?
3. Pour in 150ml into your measuring cylinder. Now add another 450ml. What does your measuring cylinder show now?
4. Can you and your partner show two amounts that would equal 500ml?
5. Show me two amounts with a difference of 300ml?
6. Can you half fill your container/measuring cylinder?  
(Reception/Year1)
7. Half the amount in your cylinder again. What have you got left?
8. Can you show more/less than your friend? (Reception)
9. Can you show me 3 cupfuls? (Scale amended to cupfuls)
10. My cylinder has more than 500ml in it but less than 650ml. Can you show me what amount of water could be in my cylinder?
11. In how many ways could you fill this container with only two pours?
12. The measuring cylinder falls over and loses 400ml. How much liquid is in the container now?
