

## Football Phoneme Friends

**Product Code:**

LI00564

**Contents: Set of footballers relating to the 44 sounds in Letters and Sounds.**

### Concept

The Football Friends have been developed to help teach children the 44 Sounds of the English Language. Each sound (phoneme) has a separate 'team' of footballers to show that different (groups of letters) graphemes can make up the same (sounds) phonemes. This means there are 44 'teams', one for each of the different sounds.

Each of the teams has a different design so that they can be distinguished from each other.

Once the teacher has introduced that sound (phoneme) and looked at the different spellings and the ways they are used in words, then teachers can pin them up on the wall as a constant reminder for the children to refer back to.

Please note that the teacher/teaching assistant will be required to cut with scissors the Football Phoneme Friends into the required teams.
