

# Introducing Loti Mats

New mats with strong links to History, Geography and Literacy topics.

New mats made of a non-crease material so easy to roll up and store.

New mats suitable to use with Loti-Bot but also with Bee-Bot, Blue-Bot!

New mats made with a matt finish to give less glare.

Here are some suggestions for using your new mats. Enjoy and adapt to suit you. If you have any brilliant ideas for using them, then please get in touch. We'd love to hear from you.

## Learning Intentions

Explore fairy tales around the world and **learn about other cultures. Explore different settings.**

Great for **story mapping, using coordinates and map directions.**

**Promote spiritual, moral and cultural values** and help pupils to make decisions and to solve problems.

## Suggestions for activities

Compare and contrast fairy tales from different cultures. As the Bot travels around the mat describe the settings and the traditional tales from these places.

Use mat to map stories and follow directions to find things on the mat. Encourage pupils to use descriptive language like the shimmering castle. Program Bot to find the landmark and record its coordinates.

The plot of Fairy Tales usually focuses on a problem or conflict that needs to be solved. They often include a moral to be learnt. Discuss the message in stories and help pupils to think through and make decisions.
